6,000 BDA flats ready

Staff Reporter

Chief Minister Siddaramaiah said on Tuesday that 6,000 flats built by the BDA are ready for occupation and the date of the formal unveiling would be announced next week.

He was speaking on the sidelines of his janaspandana programme. He also said that the allottees would be identified through a lottery system. This will be the first time in several years that the BDA will distribute subsidised residential properties to the public. These flats — one, two and three BHK apartments — are designed for middle, low and high income groups.
