Salem Corpn. introduces new registration system

The Salem Corporation has introduced the new civil registration system for the online provision of birth and death certificates to the residents of the city limits.

A press release of the Corporation Commissioner R. Sadheesh issued here on Thursday said that the Sate government has introduced this new system across the State.

Under this system, the government has made the Reproductive Child Health RCH - ID mandatory for getting the birth and death certificates.

For getting the RCH ID, all the pregnant women should approach the urban primary health centres functioning in their areas.

They should provide a copy of the aadhaar card to the authorities, the release added.

Pregnant women, who were consulting private doctors, too, should get the RCH ID number from the nearby urban PHC.

The Corporation Commissioner called upon all the pregnant women to register for the RCH ID with immediate effect.
